

**REL**  
ACOUSTICS LTD

**COMMODORE .1/LFE SUBWOOFER CABLE**

**Luxurious by Design.  
Explosive by Intent.**

Commodore redefines the theater experience plumbing the depths of infra-bass with breathtaking clarity. Hand-crafted connectors of our own design produce a tight, reliable connection every time.

Advanced systems require finer materials & construction to deliver extraordinary theater experiences. Commodore exceeds expectations on all counts. A perfect match for Serie S, HT/1510 Predator, and REL Reference models.

More than just a cable, Commodore is a dynamic extension of your system—connecting the emotional weight of every scene and soundtrack with the clarity and force it deserves.

**KEY FEATURES**

Low-noise internal architecture with superior 99.99% OFC copper conductors

Enhanced shielding for cleaner, more articulate bass

REL-Engineered reverse-threaded RCA connectors for secure fit

Supplex™ Blue Braided Jacket designed for performance and longevity

Available in 4 lengths: 3M, 5M, 8M, 12M

Think of Commodore as the expressive conduit between sound and emotion—delivering the kind of performance that makes you fall in love with your favorite music and films all over again.
